event)

PROFILE

I am a passionate person who is always ready to take up new challenges and a team builder who motivate team to achieve the define goals. I always ready for responsibilities, keen to use my knowledge and skills for the betterment of the society. Apart from my Engineering background I regularly follow geopolitics and like to know about the capitals and culture of various countries. I am optimistic to learn new things and looking forward for a better future.

EDUCATION

Yeshwantrao Chavan College of Engineering. (An Autonomous Institute under RTMNU) 2019 - 2022

BE in Civil Engineering
8.35

Government Polytechnic, Nagpur. (An Autonomous Institute of Government of Maharashtra) 2016 - 2019

Diploma In Civil Engineering
82.10

S.S.P English High School 2016
SSC
81.40

PROJECTS

Latch circuit based potable site specific landslide early warning system
In our final year project we opt for the field of geotechnical engineering. We find that landslides are unavoidable as well as less predictable in nature. We develop a device which is based on latch circuit to detect ground movement and provide a low cost solution for the detection of landslides.

PUBLICATION

Latch circuit based potable site specific landslide early warning system.
It is a research paper which is based on the output of our final year project. It is under review.

INTERNSHIPS

Abhishek construction

Intern

It was a short term training internship perform while in the final year of diploma engineering in summer holidays. supervise the site in Abhishek constructions where the construction of substation was going on and specifically foundation was laid down in that specific period.

ASSESSMENT / CERTIFICATION

Fundamentals of Remote Sensing And GIS

Institute Name - ISRO-Indian Institute of Remote Sensing, Dehradun.

It was an online course series conducted by IIRS-ISRO

Hand on course on Watergem

Aggregate : 4/4
